Policy statement

Housing Pathways

Momentum participates in Housing Pathways and complies with all relevant policies, procedures and instructions for receiving and assessing applications made by clients for social housing assistance.

Momentum may vary the policies, procedures and protocols of Housing Pathways where it is in the best interests of the client, our community or Momentum to do so. Any such variations are approved and documented in accordance with this policy.

Momentum complies with the NSW Government requirements:

- Community Housing Eligibility Policy; and
- Community Housing Access Policy

Access to social and affordable housing assistance

Momentum:

- Responds in a timely manner to clients in need of housing and clients seeking housing assistance have direct access to our service in a variety of ways.
- Promotes its services to other local organisations, including local support service providers, to improve access for those who are eligible and in housing need.
- Has systems and processes in place to support the assessment of the housing needs of our clients and provides effective referrals of clients.
- Require that staff declare and effectively manage any conflicts of interest by those involved in the receipt of housing applications or when undertaking any assessment of clients' needs.
- Manages its affordable housing programs in accordance with relevant funding guidelines and agreements.

Housing allocations

Momentum is committed to providing a fair and transparent system of allocation of properties to applicants. All allocations of housing will meet contemporary best practice standards in community housing and will not unlawfully discriminate against our clients.

Allocation systems and processes used will enable Momentum to:

- identify eligible applicants;
- prioritise eligible applicants for housing on the basis of need in a fair, equitable and consistent way;
- meet identified housing needs;

- minimise barriers to access housing and maximise opportunities for individuals;
- allocate vacant properties from NSW Housing Register;
- ensure there is demonstrated integrity in all the agreed processes relating to tenant selection and housing allocations, including high standards of documentation and internal auditing; and
- consider neighbourhood and community needs, suitability and property type, local demographics, and any other issues pertinent to ensuring each allocation is made achieving the best use of a property.

Tenant selection

When matching a client to a property, Momentum aims to ensure that the:

- property size is large enough to accommodate all household members;
- property is suitable for the applicant's mobility level;
- property is in an area requested by the applicant;
- property meets any special needs the applicant or family members may have, wherever possible;
- property is within reasonable distance and access to any support services being accessed by the applicant;
- allocation (matching applicant to property) makes the best use of Momentum's housing stock;
- allocation will benefit the applicant and not adversely affect the neighbours or neighbourhood; and
- property is left vacant for the shortest possible time.

Program eligibility, including eligibility for social housing where such applies, will be checked *prior* to any allocation of a property.

Conflict of interest

Any Momentum employee involved in the application assessment or housing allocations processes must register any personal or other relationship with a tenant or applicant being considered for housing assessment or allocation.

The employee must withdraw from any involvement in the allocation of housing to that tenant or applicant and must not participate or influence in any way, either implicitly or explicitly, the decision-making process when such a conflict has been declared.

The Momentum Executive must approve the allocation of any social or affordable housing property (managed by Momentum) to a current or former employee of Momentum or its associated entities.

1.01 Housing allocations procedures (social housing)

Exclusions

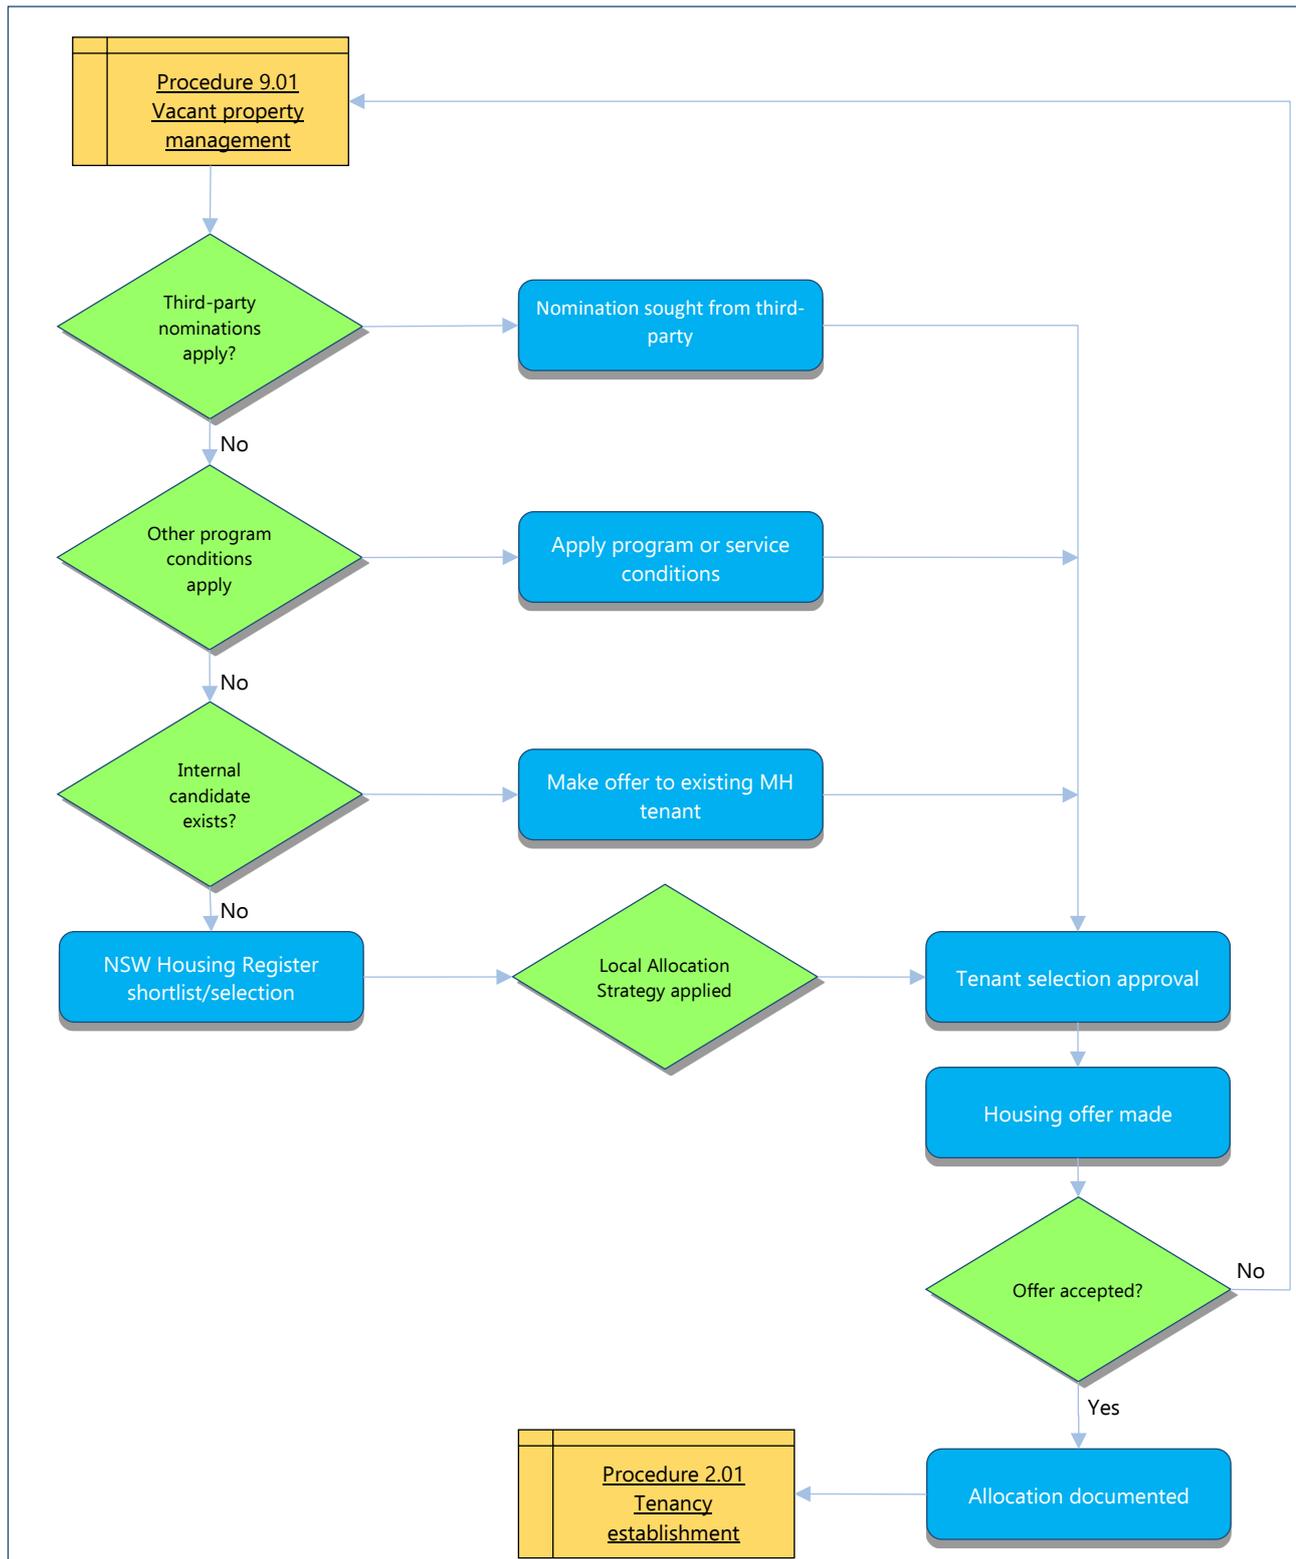

These allocation procedures do not include:

- The allocation of crisis (refuge) accommodation
- The allocation of boarding and lodging house accommodation through the CRS (mental health program)

Responsibilities

- Tenancy Officers (TO) – approval of transitional housing and housing where tenants are nominated by third parties
- Senior Housing Officer (SHO) – approval of long term social housing properties, oversight of MH allocation and documentation processes
- General Manager Housing (GMH) – management oversight, out of guidelines decisions

Procedural overview

1. Allocation rules

Principles

All staff involved in the allocation of MH-managed properties will ensure that the [company's policies and principles of tenant selection](#) are followed.

Conflict of interest

Any MH employee involved in the application assessment or housing allocations processes must register any personal or other relationship with a tenant or applicant being considered for housing assessment or allocation.

The employee must withdraw from any involvement in the allocation of housing to that tenant or applicant and must not participate or influence in any way, either implicitly or explicitly, the decision-making process when such a conflict has been declared.

The Momentum Executive must approve the allocation of any social or affordable housing property (managed by MH) to a current or former employee of MH or its associated entities.

Occupancy standards

All housing allocations, including those made under third-party agreements, will ensure that the selected tenant meets the current rules for social housing bedroom entitlements, which has been adopted as the MH occupancy standard.

See [Annexure 2: Standard bedroom entitlements for public housing](#) for the current public housing policy.

2. Third-party tenant nominations

Third-party tenant nominations are made as part of the terms of formal supported housing agreements between with Momentum support services or with external support service agencies. The following conditions apply to those agreements where the support provider has “tenant nomination rights” as a term of their agreement with MH.

Note: The details of the required allocation protocols may differ between agreements. Housing allocations must only be made with a full understanding of the relevant terms of these agreements. The following rules about allocation arrangements under supported housing agreements is provided for general guidance only.

- The Tenancy Officer has the authority to authorise allocations of properties to nominated clients
- The nominated household must meet the current MH [occupancy standard](#)
- The nominated household must meet the terms of any relevant [Local Allocation Strategy](#) for the property
- The nomination must be completed on the agreed tenant nomination form
- The third-party organisation must ensure that the tenant has a plan for the provision of support services
- The nominated tenant must meet the cohort (or target group) specified under the terms of the relevant supported housing agreement
- The nominated housing must be eligible for social housing at the time the nomination is made (some eligibility exclusions apply under the Specialist Homelessness Service Program)
- MH must be satisfied that the third-party organisation has met the terms of its own internal client selection procedures, as these are outlined in their agreement with MH.

See [Annexure 1: Allocations, offers and agreements \(by allocation type\)](#) for further information about housing offers and documentation requirements for internal transfers.

See SHS Tenancy Allocation Process for information specific to the allocation of properties under the Specialist Homelessness Services.

Required timeframes (third-party nominations)

3. Specific program requirements

The rules and required allocation processes for vacant properties may also vary as a result of distinct property programs, funding arrangements or services that are attached to individual properties.

The following table provides a guide for staff to these specific program requirements:

Program	Information
Boarding houses	Clients must meet the criteria for the Mental Health Pathways funding and referral program.
Affordable housing	These procedures do not apply to those properties that are managed under the NRAS or NSW Affordable Housing Guidelines. Please refer to MH Procedure 1.02 Affordable housing (access and Allocations)
State Environmental and Planning (Seniors Living) Policy	<p>MH recognises that properties built under this Policy need to be maintained for its original use. Tenants need to meet one of the following criteria:</p> <ul style="list-style-type: none"> • They are an indigenous person older than 45 years of age • They are a non-indigenous person older than 55 years of age • They are a person with a disability <p>Additional care must be taken when allocating properties to people who do not meet the age criteria for these developments where the development is predominantly occupied by older people.</p> <p>This requirement applies to both third-party nominations and allocations made from the NSW Housing Register</p>

4. Internal candidates

The SHO has the authority to approve all offers of vacant properties to existing MH tenants where:

- the approval does not breach the terms of any relevant [supported housing agreement](#); and
- there is an approved internal management transfer for that tenant (see MH Procedure 7.01 Transfers); and
- the allocation would not breach any [specific funding or program](#) eligibility that is relevant to the property.

See [Annexure 1: Allocations, offers and agreements \(by allocation type\)](#) for further information about housing offers and documentation requirements for internal transfers

5. NSW Housing register protocols

General

Under Housing Pathways protocols, MH selects the next suitable candidate from the NSW Housing Register, according to the agreed HOMES tenant selection and nomination process.

The required Pathways protocols must be followed for all nominations sought using this method.

MH must ensure that the next suitable candidate remains eligible for social housing.

MH rules

The following MH rules will be followed when selecting tenants from the NSW Housing Register:

- MH has the right to apply its own approved [Local Allocation Strategies](#) in relation to the selection of all Housing Register clients
- MH reserves the right to suspend the social housing application of a former unsatisfactory tenant of MH
- MH reserves the right to deny housing to a former MH tenant who is classified as being ineligible for further social housing assistance.
- MH has the right to apply its own [occupancy standards](#) in relation to selection of all Housing Register clients
- Where it is necessary to conduct an eligibility review of a client with another social housing provider (i.e. in relation to either a former or current tenant of the provider), MH will allow that provider 2 working days to respond. In the event of no response being received, MH will bypass the client for a housing allocation.
- MH recognises that clients with special property requirements, particularly those households with members who have a physical disability, are often bypassed for social housing allocations. MH will ensure that it seeks to make all reasonable efforts to identify suitable MH properties (or modify an existing vacant MH-managed property) in order to improve access to social housing for such households.
- A client will be bypassed by MH where the client has a pet (that contravenes the MH pets policy) and they will not be able to or willing to comply with relevant MH policies. See MH Procedure 6.03 Pets.
- Clients need to be able to sustain a social housing tenancy. Where a client from the NSW Housing Register has complex needs and is considered to require initial or ongoing support to sustain their tenancy, social housing offers can be made conditionally on the provision of necessary support services being accepted by the tenant.

MH internal procedures (including Offer Response Forms and Offer Checklist)

Full completion of the Housing Pathways Offer Response form and Offer Checklist is a requirement of Housing Pathways.

MH has allocated responsibilities for their completion as detailed in the following table (“Allocations Officer” refers to the staff member with responsibility for selecting the nominee through HOMES)

Events	Responsibility/required actions
Generation of HOMES shortlist	By Allocation Officer via HOMES, as per Housing Pathways protocols
Eligibility check of shortlisted nominees	By Allocation Officer, as per Housing Pathways protocols
Selection of tenant	Once the nominee is selected, the Allocations Officer emails the Offer Checklist to the Vacancy Manager
Nominee refuses offer	Vacancy Manager notes refusal in Offer Checklist and refers Offer Checklist and Offer Response Form to Allocations Officer. Allocations Officer records offer as a refusal and manages Offer Outcome process. The responsibility includes deciding as to the validity of the client's reasons for refusal of the property.
Nominee accepts offer	Vacancy Manager notes acceptance in Offer Checklist and arranges sign-up with nominee. Vacancy Manager refers Offer Response Form and Offer Checklist to Allocations Officer, who records offer as accepted and closes nominee's Housing Register application.
Acceptance of transitional housing by third-party nominee	The Allocations Officer is responsible for updating the HOMES records of clients who have accepted transitional housing with MH. These tenants can remain listed on the Housing Register for an offer of permanent social housing, however their HOMES record must be updated (including their new address and contact details) The Vacancy Officer sends the Nominee Details form to the Support Service, in order to collect relevant household data.

Required timeframes (Pathways)

Refer to 9.01 Vacant property management procedures for timeframes.

6. Using local allocation strategies

A Local Allocation Strategy (LAS) is developed by MH as part of its aim of establishing sustainable tenancies. Typically, an LAS is used to explain how allocations to a property or group of properties (such as a unit complex or an estate/ suburb) would have a higher likelihood of leading to sustained long-term tenancies if targeted to clients with particular characteristics.

Importantly, an LAS must also demonstrate that such a strategy would not have a significant detrimental impact on the overall access to social housing clients in the local area.

Each LAS:

- Must be in the form prescribed by MH; and
- Must include clear instructions for the allocation of properties assigned to the LAS; and
- Must be approved by the Family and Communities Manager

For further information, see MH Local Allocation Strategy (Template).

7. Housing offers

All housing offers are primarily made verbally, to minimise the reletting period

A letter (the **Access01**) can be used, where the tenant cannot be contacted by telephone or other means

8. Allocation documentation requirements

All housing applications made by MH must be documented, including the keeping of evidence that demonstrates that the required procedures have been met.

The evidentiary required are listed [in Annexure 1: Allocations, offers and agreement \(by allocation type\)](#)

9. Standard letters

1.02 Affordable housing applications and allocations

Purpose

- To provide direction to Housing staff in relation to receiving and assessing applications for housing and to make housing allocations provided under Momentum Collective Affordable Housing Programs
- To ensure that Momentum Collective meets its obligations under the NSW Affordable Housing Program.

Definitions

Affordable Housing - Housing managed by Momentum Collective according to the NSW Affordable Housing Guidelines:

- <Addresses removed>

Responsibilities

- Receiving and assessing all affordable housing applications – All Momentum Collective Housing Staff
- Allocation of affordable housing properties – Senior Housing Officer

General eligibility criteria

To be eligible for the Momentum Collective Affordable Housing Program, the client must:

- Be a citizen or have permanent residency in Australia
- Be a resident of NSW
- Establish their identity
- Be able to sustain a successful tenancy
- Where applicable, make repayments of any former debts to a community housing provider in NSW
- Be a least 18 years of age
- Be in housing need and unable to resolve this need in the medium to long term without assistance
- Not have assets or property which could reasonably be expected to solve their housing situation
- Be eligible according to the income eligibility criteria according to the [NSW Affordable Housing Guidelines](#) (“the Guidelines”).

Applications

An application for housing provided under the Momentum Collective affordable housing programs must be made by the client directly to Momentum Collective using the prescribed application form.

Applicants must provide the required verification of the income of all household members.

Applicants who do not provide sufficient documentation are ineligible for housing assistance.

Affordable housing clients are not required to apply through Housing Pathways prior to making an application to Momentum Collective.

Clients must prove eligibility for the program upon application.

Ongoing eligibility

Affordable housing tenants must continue to meet the eligibility criteria for affordable housing according to the current Guidelines, which is reviewed on an annual basis.

See Momentum Collective Procedure: 10.02 Affordable housing eligibility reviews.

Application management

The following are the documentation requirements for applications made for the Momentum Collective affordable housing program

- Application for Tenancy (Affordable Housing); and
- Proof of identity for all residents older than 18; and
- Verification of all sources of income for the head tenant for past 3 month period; and
- Verification of all sources of income for all other residents aged 18 or older for the past 3 month period; and
- A bank statement for each income earning resident, covering a 3 month period.

Unlike social housing application requirements, the eligibility for affordable housing is determined by considering all household income received for the past 3 month period.

Eligibility assessments

To assess eligibility:

- Ensure all required supporting documentation has been provided
- Enter all income received by all residents of each household in the [Affordable Housing Eligibility Calculator](#)
- The assessor then prints off the [Calculator](#), signs it and sends with all supporting documents to the Momentum Collective Senior Housing Officer (SHO). The household's eligibility needs to be substantiated by the SHO.

Housing allocations

These policies and procedures for the allocation of dwellings to clients are consistent with the overall program and service aims of the Momentum Collective affordable housing programs and the related funding and program requirements.

For each affordable housing vacancy, Momentum Collective will select a shortlist of suitable applicants from those applications received as part of the vacancy advertising process; and

The preferred applicant will be selected, giving consideration to a range of factors:

- The income band of the client will ensure there is a continued income and social mix within the affordable housing project and across the affordable housing program;
- There is a matching of available housing to the needs of the client, including the client's household size meeting the generally agreed social housing occupancy guidelines;
- The client demonstrates they have a need for affordable housing, they would be unlikely to be allocated priority housing in the short-term and the vacant dwelling satisfies that need;
- The household has income growth potential and/or home ownership prospects in the medium term;
- The household has a connection to the local area or has demonstrated a need to live in the area for employment, training or schooling.

In order to ensure financial viability of the Momentum Collective affordable housing programs, revenue from operations must be sufficient to build a surplus – to offset contingent risks and to support investment in additional affordable housing supply. This means that at least in the short term, allocations of affordable housing supply to higher income households may exceed those for lower income households. Over time, as resources permit the relative allocation of housing in a project or portfolio may need to be adjusted to achieve a balance across the three target income bands.

- Complete the Property Allocation Record (Affordable housing)
- Ensure that the Property Allocation Record is endorsed within the Momentum Collective delegated authorities

- The offer is *extended* to the endorsed applicant

Standard residential tenancies agreement

Tenants will sign a Residential Tenancies Agreement (Affordable Housing) with Momentum Collective and the lease agreement, accompanying documentation and tenancy commencement procedures will be provided in accordance with current Momentum Collective standards for establishing tenancies.

Each tenant will be provided with a fixed-term lease of 12 months.

Additional information at sign-up

Additional information, including additional agreement terms where necessary, will be provided that reflect the aims and objective of the Momentum Collective Affordable Housing program. In particular:

- The rent-setting model used for the tenancy will be outlined; and
- Each agreement will include additional terms that reflect that each tenancy is subject to an annual household eligibility review;

Rental bonds

Affordable housing tenants must pay the full rental bond (equivalent to 4 weeks of the assessed rent, rounded down to the closest \$25).

In cases of financial hardship, affordable housing tenants can be allowed to repay the bond over a maximum of 4 payments. The first instalment must be paid before or at the time of tenancy sign-up.

Advertising of vacancies

All affordable housing programs will be broadly advertised:

- Online (e.g. Gumtree, Domain, realestate.com.au)
- Local newspapers
- By direct mailing to community mailing lists

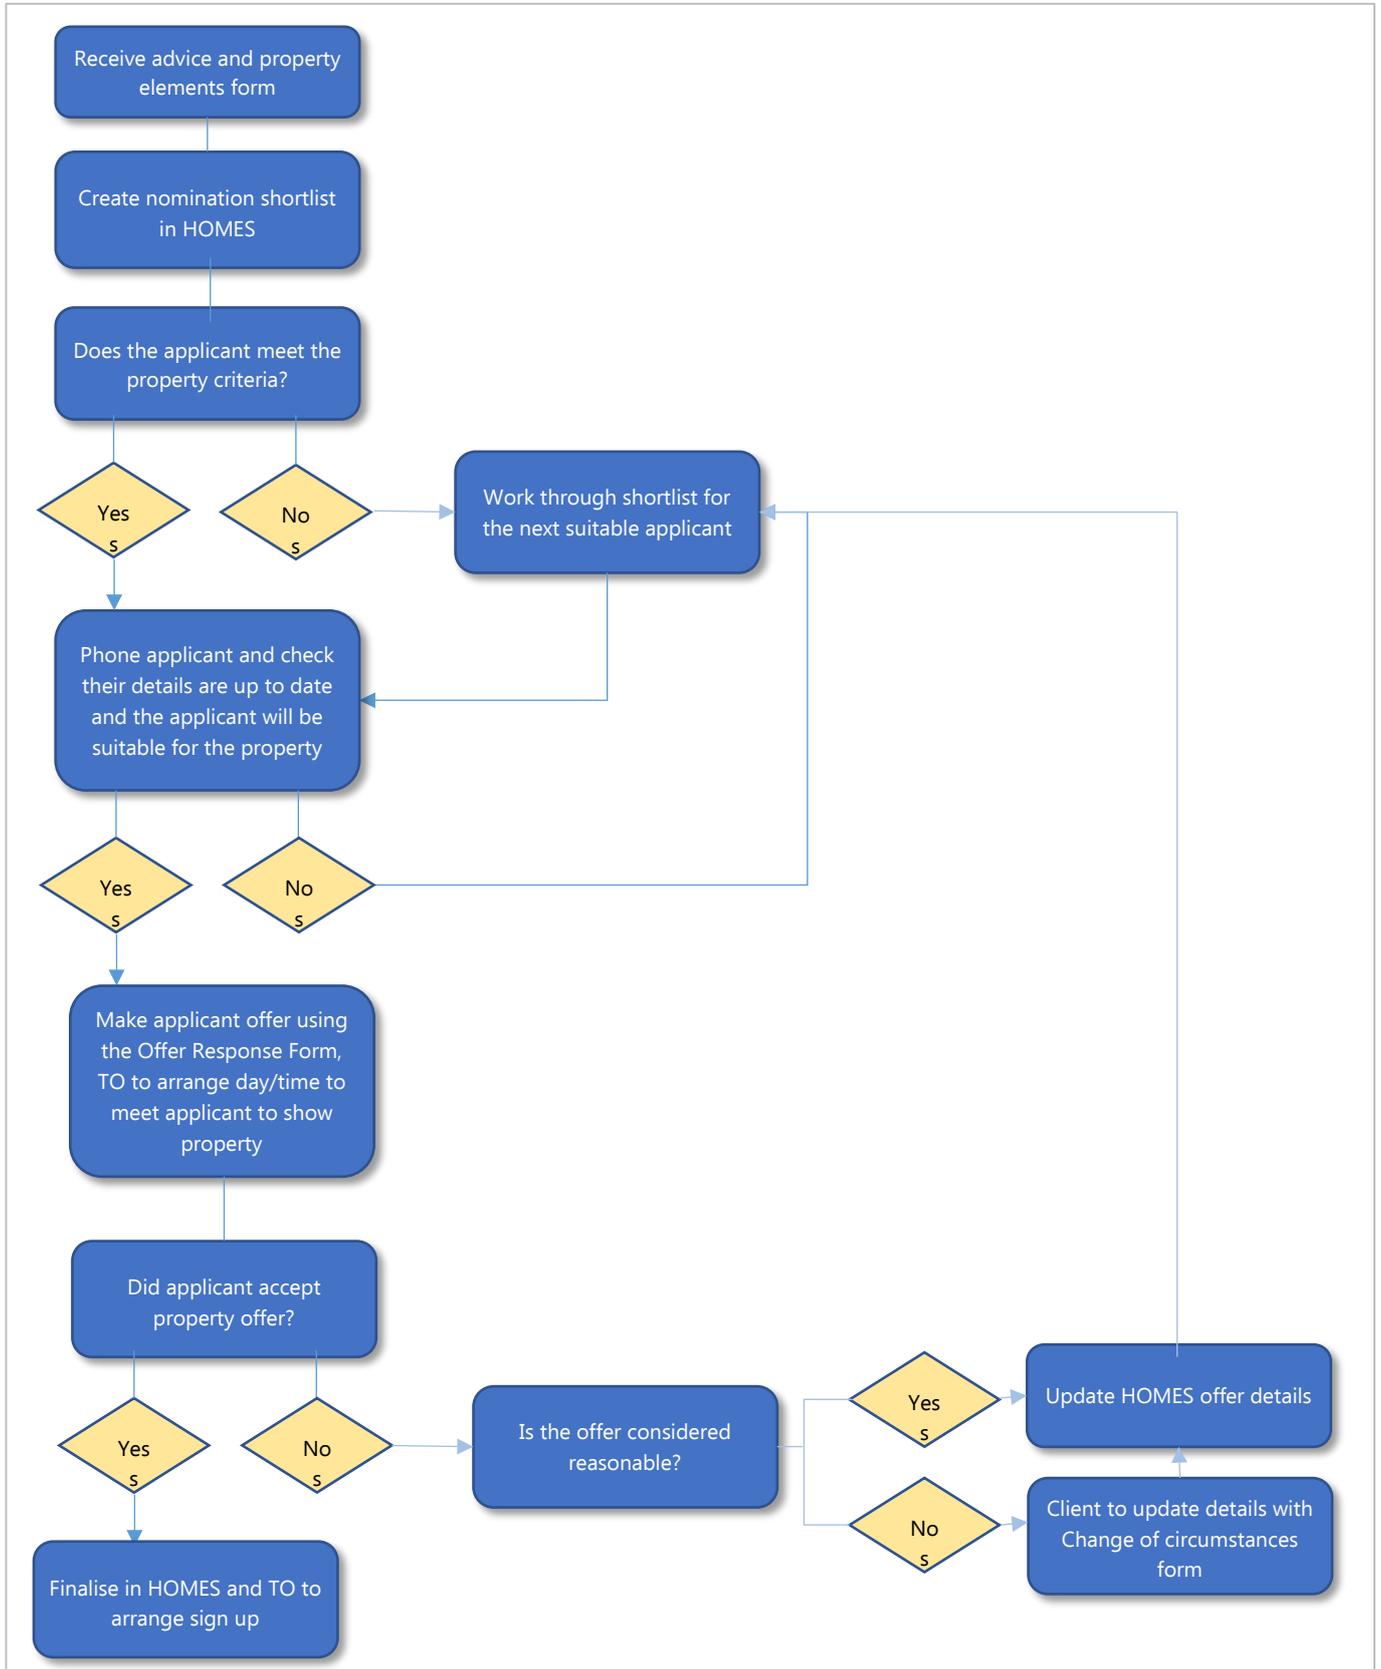

Rent setting

The rent-setting policies of Momentum Collective for each affordable housing project will ensure affordable outcomes for eligible households.

Refer to the Momentum Collective Rent Setting Policies, for further information.

Single people or couples with two other household members	Two or three bedrooms

Single people or couples with five or more other household members	Four bedroom or, if available, five or more bedrooms. Clients who have a five-bedroom household complement will generally be offered a four-bedroom property unless a five-bedroom property is vacant when the client's turn is reached. This is because of the limited availability of five-bedroom accommodation.

Table 2: Criteria for accommodating children

Situation	Response
Child is over 18 years of age	The person is considered to be an adult when calculating the minimum bedroom entitlement
Shared bedrooms	Same sex children up to 18 years of age are expected to share a bedroom Male and female children are expected to share a bedroom until one of the children reaches 10 years of age.
Children can't share a bedroom	FACS will allocate an additional bedroom where the client has demonstrated a need for same sex children, or children under 10 years of age, to have separate bedrooms. Examples of situations where an extra bedroom could be appropriate include where there is a large age gap between the children or behavioural factors.
Shared custody	The child/children are considered to be part of the household if the client has shared custody of children for 3 days per week or more. Normal bedroom entitlements apply.
Access visits from children	The children are not considered to be part of the household if they visit for less than 3 days per week. The client must demonstrate a need for an extra bedroom to accommodate access visits.
Future needs of children who may need separate bedrooms in 2 or 3 years time	FACS will take this into account when matching the client to a property if it can. FACS will make this decision on a case by case basis according to the size and type of housing that is available in the area.
